

INTEGRATED STATISTICS LEARNING ENVIRONMENT

Supporting blended learning, flipped classrooms, and remote instruction
Data exploration, statistical analysis & visualizations with no coding required

Create

Upload existing materials or create interactive, media-rich lessons using delivered widgets and reusable components

Teach

Delivered via live or pre-recorded video, with real-time collaboration, sketchpads, group data exploration, chat, Q&A, and examinations

Improve

Monitor student progress, address queued questions, and export lessons and activity for actionable analysis

Connecting Students and Instructors

The ISLE universal framework puts the power of technology to work for education
